The Dean's Message

October has come and gone, but it was once again filled with treats and some tricks, from Annual Gala's to Speed Networking Events. This month was all about helping our students make the right connections and experience to help them to launch their careers.

Be sure to share your successes in the Dean's Newsletter. For submissions, visit business.humber.ca/content-submission and choose "The Dean's Newsletter".

Humber Travels to Ningbo, China for a Celebration of Partnership

The Humber-Ningbo program, which began in 1996, is the college's longest-standing international partnership and has produced more than 2,000 graduates.

The anniversary celebration took place on Ningbo University's campus where Humber President, Chris Whitaker and Ningbo University Vice President, Yan Xiaojun spoke to the audience about the successful partnership between the two institutions. Over the past 20 years, Humber and Ningbo University have worked collaboratively to

ensure that students receive the highest standard of education, with pathways that lead to academic and career success both in China and in Canada.

The celebration was attended by over 100 alumni including students from the first graduating class. After completing the diploma program at Humber, many graduates have continued their education by completing degrees and masters programs at York University and Bishops University in Canada and Davenport University in the USA. Since

completing their education all alumni have established strong careers and a number of graduates have also gone on to become successful entrepreneurs running their own business.

To commemorate the 20th anniversary, a special video was shown during the celebration highlighting the unique aspects that truly make this program extraordinary. Congratulations to both Humber and Ningbo University for their dedication to student success.

FIDM Holds an Information Session with Humber's Fashion Arts and Business Students

A College Representative from FIDM held an information session to our Fashion Arts and Business students on Thursday November 3rd. The overall visual presentation gave students an exciting look inside the world of FIDM, an accredited college of creative thinking in California where students prepare to excel in careers in the fashion industry.

Further information about their accredited Associate of Arts and Bachelor's degree programs with industry-driven curricula, 26 business and design majors, industry partnerships, comprehensive student and alumni career resources, campus life, and global alumni network was highlighted.
