

Humber College is excited to introduce Magnet, a network of 60,000+ employers and Ontario's colleges and universities.

Magnet uses the innovative technology WhoPlusYou to search over two million jobs and match you to opportunities based on your specific skills and interests.

Magnet → Humber Students & Alumni

-  Magnet lets students create a profile by uploading a resume or completed LinkedIn profile.
 - *If students require any assistance with Magnet, resumes, or LinkedIn profiles, they can contact the Career Centre at extension 4966 (North) or 3340 (Lakeshore).*
-  Complete your profile by including specific skills and qualifications, images, audio, video, presentations to showcase and highlight your unique talents.
-  Once an employer posts a job, Magnet matches the job to the right candidate. If you are matched, you will receive an e-mail invitation to apply for the job.

Let the jobs chase you!

Benefits of Magnet

-  Free service
-  Connects students and alumni to jobs matching their skills and qualifications
-  Allows students to create unique profiles increasing their chances of connecting to more opportunities
-  Your profile will always remain 100% private, until *you* decide to share it with an employer
